

SOIL TESTING SERVICES

Your local **Palmer Farm Research Lab, UAF** has been closed permanently as of **March 2016** (907-746-9450 Experiment Farm Office)

The labs listed below are ones I recommend. They specialize in ecological agriculture and holistic soil health. They provide sustainable growers more comprehensive test results and recommendations than the Cooperative Extension Service test did. Cost range is around \$45-75; wait time is 1-2 weeks at the most. I recommend you stick with one lab once you start testing soil through the years.

Crop Services International Inc.,

10332 Shaver Road Portage, MI 49024

Organic soil tests and consulting, comprehensive list of organic soil amendments, including mycorrhizal products, Bio-dynamic Field Broadcasters, homeopathic weed control, and Veges Sound Machines. Phone: 800-260-7933 E-mail: team@croppservicesintl.com
www.croppservicesintl.com Choose the **CEC test** for an overall soil mineral status.

Peaceful Valley Farm Supply

PO Box 2209, Grass Valley, CA 95945

Organic tests plus free booklet on how to interpret test results. Also provides a full line of supplies, equipment, organic amendments.

Tel (toll free) 1- 888-784-1722.

www.groworganic.com

Timberleaf Soil Testing

39648 Old Spring Road

Murrieta CA 92563

1- 909- 677 -7510 email tmbrlfsoiltest@murrieta.net

Organic and Biodynamic tests and consulting.

I do not recommend **Brookside Lab** because they do not provide recommendations, only test results. You'll need to consult with PSWCD, 357-1440 for interpreting results @\$70/hr.

For sales-oriented growers. Technical info; not recommended for beginning gardeners.

International Ag Labs, Inc.

PO Box 788, Fairmont, MN 56031

Biological and organic tests and consulting; also all types of feed, water & plant tissue analysis; soil rehabilitation and health products, mycorrhizal products, etc.
